Credit Compliance in a Box

Supported by the MFAA for its members, Gold Seal's complete **Compliance Management System** provides all the policies, procedures, tools and templates required to demonstrate compliance with the NCCP Act. Acceptable to ASIC as a complete Compliance Management System for Credit Licensees. Updated regularly, the System comes in three parts:

- **Credit Services Management Manual** – Indispensable manual providing all the material needed by Credit Licensees to demonstrate compliance with the new "general conduct" requirements. Comprehensive guidance and operating policies and procedures, tools and templates integrate all the legal and compliance requirements of the NCCP Act, ASIC's Regulatory Guides and the Licence Conditions.
- **Compliance Plan** – A complete summary of the tasks and activities required to comply with the credit laws. Enables Credit Licensees to plan and allocate responsibility for compliance. To automate compliance management, the Plan can readily be incorporated into any workflow system.
